DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 2, 4, 6-9, 12, 14, and 16-21 are allowed.
2. The following is an examiner's statement of reasons for allowance:

After amendment of the claims, the applicant's arguments have been considered and found persuasive. In agreement with the applicant's remarks, the prior art of record fails to disclose receiving measurements of parameters relating to one or more operations of a first cell in a cellular communication system, wherein said parameters include information relating to how many and which cells serve a wireless subscriber communication unit; calculating a degree of coverage overlap for said first cell by determining a unique coverage factor (UCF) for that cell using Measurement Reports (MR), where:

$$\text{UCF} = \frac{\text{Sum of MRs with no and/or weak neighbors}}{\text{Total Sum of MRs}}$$

as required by amended claims 1 and 12.

The subsequent dependent claims 2, 4, 6-9, 14, and 16-21 are allowable on the basis that the limitations disclosed by said claims are within the scope of the present invention, thus overcoming the rejection supported by cited secondary references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
